INTRODUCTION

For 20 years, Youth Change Workshops has been the nation's leader providing professional development training to alternative education high schools. Youth Change's professional development workshop helps alternative education teachers to become more proficient in managing students' behavioral, social and mental health concerns. Typically, 80% of teacher college training focuses on content, and a mere 20% addresses the behavioral, social and emotional problems that dominate many alternative education classrooms.

Many teachers lose a whopping 22 minutes of instruction time each hour to address classroom management problems. All that college training on content is wasted when classroom management takes center stage, and academic instruction takes a back seat.

Both novice and veteran alternative ed teachers often report feeling that they lack updated, practical, immediately usable methods to prevent and manage classroom management concerns. Alt ed teachers may be experts at teaching academic content, but they often can feel unprepared to effectively manage the escalating bad behavior, mental health concerns, family problems, bad attitudes, negativity, work refusal, tardiness, substance abuse, apathy, disrespect, non-compliance, and defiance that they encounter every day in the classroom.

Youth Change's **Breakthrough Strategies to Teach and Counsel Troubled Students Workshop** offers novice and veteran alternative education teachers the practical, real-world classroom management training they didn't receive in college. For two decades this course has shown teachers how to prevent or stop the classroom management problems, plus thousands of teachers have learned how to better identify and manage students' social and emotional problems that impede learning. Your on-site workshop will be customized to meet the needs of

alternative education teachers, however this workshop will also be beneficial for special educators, teaching assistants, school counselors, administrators, support staff, and anyone who struggles to manage and work with very difficult and troubled students.

Breakthrough Strategies Workshop

sessions have been held throughout North America. We also have provided training to hundreds of alternative education schools and conferences including Lincoln Hall (New York) Juvenile Corrections education staff, the Oregon Alternative Education Conference, and the Kentucky Behavior Disorders Conference. Other past alternative ed sponsors of our on-site workshops include: the Berkshire Union (NY) Alternative School, The Children's Center (CT), Riverhead (NY) School, Roosevelt Children's Academy (NY), and The New School (CT).

While Youth Change's **Breakthrough Strategies Workshop** is theoretically sound, this course does not offer more theory as many alternative education teachers already have strong theoretical backgrounds. Instead, this seminar is primarily practical and results-oriented. The methods (an example is shown at right) offered in this course were developed "in the trenches" with alt ed students like yours, and the results of these efforts were researched and documented in a variety of ways, including publication in the journal of the Center for Social Policy, and in other professional and national venues.

The 10 hour, 1.5 day version of this seminar provides approximately 200 strategies for whatever specific social, emotional, and school behavior problems your staff identify. That makes the **Breakthrough Strategies Workshop** quite unique because your staff will actually be able to set the agenda upon arrival. Once they name the problem areas that they face in their classrooms, this workshop delivers innovative, attention-grabbing, more effective methods to prevent or manage those exact concerns. This workshop will precisely target your staff's most

important concerns, then deliver ready-to-use, real-world solutions they can use the very next day. In addition, this workshop will put your teachers "inside" their students' "skin." Teachers will gain a deeper understanding of what makes troubled and problem alternative education students "tick," then they will learn targeted methods to precisely address those concerns. This reduces the use of "one-size-fits-all" interventions that fit no one.

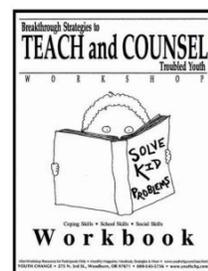

Youth Change can provide full and part day workshops in any configuration, including a 6 hour option in a single one day session. A 10 hours, 1.5 days option is shown below.

Youth Change warrants your participants, meaning that we maintain a toll-free help line, huge resource website with a special area for workshop past participants. Plus, we man a toll-free Live Expert Help line and a Live Expert Help web page, all designed to be ready to help with any new classroom management concerns that develop once your course concludes. This is a never-ending warranty. We stand behind our workshop, and we stand behind your staff. After our workshop, your alternative ed teachers won't be alone in that classroom anymore. Youth Change Workshops will be right there with them.

BREAKTHROUGH STRATEGIES to TEACH TROUBLED STUDENTS WORKSHOP

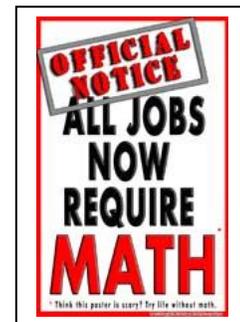

Course Overview

Your teachers will bring their most serious student problems with them

to the **Breakthrough Strategies to Teach and Counsel Troubled Students Workshop**, and they will receive hundreds of practical, problem-stopping, ready-to-use interventions on the spot. This professional development inservice delivers the best answers for your worst student problems, and shows your alt ed staff exactly how to create a positive, safe, productive learning environment-- even for classrooms that have had significant or chronic classroom management problems.

The Breakthrough Strategies to Teach and Counsel Troubled Students Workshop 1.5 day session delivers approximately 200 ready-to-use, more effective strategies for any type of alt ed student and nearly any type of problem. Your participants will name the problems at the start of the course, then systematically learn solutions. Your teachers will learn the newest, most effective methods that exist. An example worksheet strategy is shown at right-- the small print at the bottom of the worksheet says "Think this paper is scary? Try life without math."

These strategies have been designed to turnaround defiant, unmotivated, traumatized, out-of-control, special needs, difficult, truant, violent, conduct disordered, oppositional, emotionally disturbed, depressed, non-compliant, learning disabled, and withdrawn alternative ed students

Participants will learn how to identify different types of student social, emotional, and school behavior problems, and to match the intervention to the specific problem, allowing the teacher to more precisely and quickly target and solve the concerns they encounter. This increased precision and speed will give your teachers back many hours of instruction time that otherwise would have been lost. Your teaching staff will become expert managing all the varied social and emotional problems that today's alternative ed students present on a regular basis.

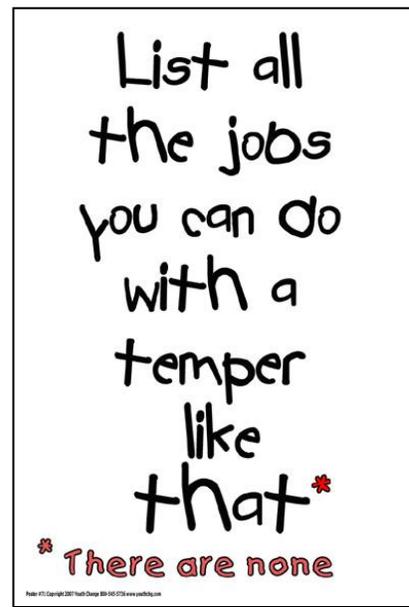

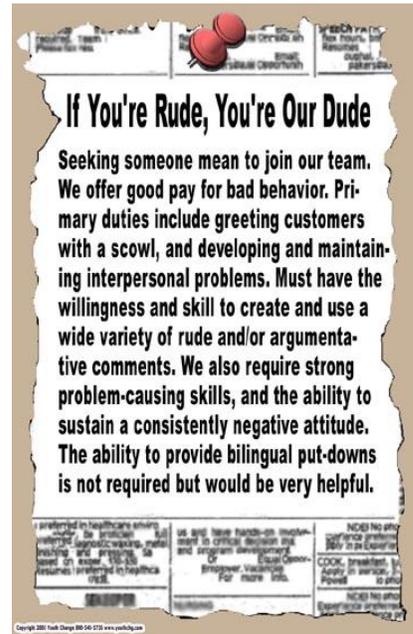

Course Outline

10 hours, 2 sessions over 1.5 days, approximately 200 Coping, School, and Social Skills interventions. Participants will document the results achieved by participating in this course by taking a workshop pre- and post-test.

Session 1

Approximately 6 Hours (Full Day)
(After deducting 2 breaks and lunch)

- Course Introduction and Pre-Test, Participants Identify Key Student Problem Areas, Receive Initial Information on Those Problems (1 hour)
- Intervention Strategies Overview and Sampling of Interventions (1 hour, approximately 30 strategies)
- Coping Skills Strategies (4 hours)
 - How to Manage Unmanageable Students, How to Teach Self-Control

- Teaching Disrespectful Students to Behave More Respectfully to Adults and Peers
- How to Teach Students to Have Appropriate Personal Space and Distance
- Methods to Teach Appropriate Interactions with Authority Figures

- **RESULTS:** Participants will learn approximately 70 specific intervention strategies for every type of student social problem named by course attendees. Participants will learn exactly how to manage "unmanageable" students in their classroom. Participants will overcome any barriers they feel exist that keep them from effectively working with unmanageable

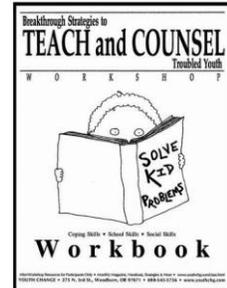

students who are aggressive, disrespectful, non-compliant, verbally aggressive, or hostile. Your staff will learn more effective methods for all types of social skill problems that are evidenced in school. Interventions will be drawn from approaches shown to be effective with children and adolescents, and these methods will include basic mental health techniques long documented as the preferred methodology. Participants will become more confident about managing any alt ed students that they have struggled to manage in the past. Participants will learn how to feel more confident managing even extremely hard-to-control youngsters. Class participants will learn essential safety information that could help prevent a serious incident or shooting at school. Methods for gangs, bullies, violent youth, and angry students will also be offered.

Course Results

For over two decades, Youth Change Workshops has provided workshops for alternative

education staff that offer methods to reduce defiance, improve motivation, address mental health concerns, school failure, work refusal and apathy. Participants crisscross the U.S., sit for hours in Los Angeles traffic, fly in from Japan and Australia, crash full sessions, and brave winter snow storms to attend this class-- and actually still say "It was worth the trip!" Don't take our word for our results. Listen to our participants. Full, signed letters are available for your review. Here are some typical reactions to Youth Change's workshops:

"Four years ago I took a group of teachers to your workshop. It changed my life. I gained a new understanding of the students I work with and now share your strategies as part of my new teacher training each year. Your workshop ranks as my number one ever in all my years of education." Kristie McCuston, Vice Principal, Garland, TX

"Can't wait to share your ideas with our staff. I loved the way you tailored the interventions to the type of student. It was refreshing to finally attend a workshop where the presenter actually presented and didn't fill the workshop with 'touchy feely' activities with little relevance." Sally McAfee, Coordinator of Alternative Education, Corvallis, OR

"I attended a workshop several years ago...5, 6 or 7 years...I don't quite remember. But I remember the impact that workshop made on me like it was yesterday. I remember you handing out little strips of paper, giving each workshop participant about 15 pieces of paper, with a wide range of problems young people face every day. Some were simply life situations, grandmother's death, argument with best friend. But some were so horrific...being molested, being hungry with no food in the future, being beaten. I realized that day that I never know what a student may be facing every day. So thank you again for that lesson that I have kept with me every day in working with my students." Cathy Harper, Mother Lode Job Training, Sonora, CA.

"Your workshop presentation played a significant role in better equipping staff for the

challenges and privilege of working with these children." Jinna Risdal, Washington
Primary Intervention Conference

"Incredibly useful. Inspiring." Caryn Curry, Counselor, Lincoln School, E. Chicago, IN

"Absolutely phenomenal! A Great deal of useful information." Jami Giamusso,
Washington Learning Disability Association

"Just a fabulous, life changing two days."

Bernadette Ostrozovich, Outreach Instructor, Indianapolis, IN

"Most interesting, useful workshop I've ever been to."

Phyllis Eccles, Special Ed Teacher, Hillsboro Elementary School, Hillsboro, TX

"So many good ideas, I couldn't write fast enough."

Diana Borg, Teacher, O'Fallon, MO

About the Instructor

Veteran instructor, Ruth Herman Wells, M.S. is the author of dozens of books, videos and articles on helping students to succeed in school and life. She is the director of Youth Change Workshops, and has written four popular books for Pro Ed Publishers, one of the world's largest publishers of resources for challenged and special needs students. She writes a regular column for SEEN Magazine, and has appeared in the Child Welfare Report, The Corrections Compendium, and countless other publications. Ruth has trained staff in every imaginable setting from elementary schools to high schools, from Job Corps to mental health hospitals, from correctional programs to adult schools, from Pre-K programs to colleges. Ruth has trained staff from the Florida Keys to the Arctic Circle. People routinely travel from as far away as Australia, Japan and the United Kingdom to learn from Ruth how to better reach and teach their students. Ruth delivers concrete, practical, cutting-edge learning interventions everywhere she goes, and she can deliver immediate, measurable results for your participants too.

Ruth has managed many types of mental health settings including independent living programs and day treatment. Her mental health insight will be the perfect match for your staff's expertise on content. Ruth's lively, hard-to-resist presentation style will encourage your staff to speak out and get involved in the presentation. Your conference participants will name the problem areas they see in their classes, then Ruth will deliver some of the

most innovative, effective methods that exist. Ruth's methods were honed with children and youth in classrooms, special ed, locked justice settings, and mental health agencies. Ruth will be prepared to provide active learning interventions for any type of student and any type of problem. Ruth specializes in solutions for classroom management problems, poor motivation, negative attitudes, discouragement, procrastination, poor study skills, inadequate organizational skills, difficulty communicating, social skill concerns, anxiety, overwhelm, crisis, apathy, lateness, and absenteeism. Ruth has methods especially designed to work well with students from diverse backgrounds, students who have difficulty learning English, and students who face multiple barriers to academic success.

The methods Ruth features in her workshops were created in schools and treatment centers with students just like yours. The results of those efforts have been documented and published in many venues. One program that Ruth directed showed a remarkable graduation rate of 90% for dropouts, as well as a 10% recidivism rate for juvenile offenders. That program also documented reductions in tardiness and absenteeism. One Washington State school district using these methods noted reductions in referrals to detention and suspension, and that district won the state education association's Most Improved School District award after incorporating these approaches. Ruth's work draws heavily on well-researched mental health, education, and psychology studies including Stanton Samenow's work on conduct disorders and oppositional-defiant children. Ruth's interventions are designed to work when conventional methods fail, and were created to help you enhance your results with your students who are struggling.
