

I am sorry this took so long, had a one day turn around from the week in OK City to DC.
Just getting my head straight today is a still a chore.

Everyone, without exception, gave high marks to your training. I was particularly pleased with the Residential Advisors from Guthrie, who normally do not attend these trainings. Everyone came up and thanked us and talked about finally having someone help them figure out what to do with some of their students.

Thanks very much again and again.. bernice
